SCIENTIFIC PROGRAM - FRIDAY 9 OCTOBER 2026

0900 - 1020
OPENING PLENARY
Chair: Dr Vida Viliunas OAM
 Welcome to Country
Kester Brown Lecture
Dr Ross Kerridge

1020-1100 - Morning tea

1100- 1230
PLENARY
Chair: Dr Frances Page
 Not just can we - should we? Shared decision making for high risk patients
Prof Denny Levett
 Optimising sedation and ensuring oxygenation
Dr Basil Matta

1230-1330 - Lunch

1330- 1500
PERIOPERATIVE
 From waiting lists to preparation pathways: transforming care with early digital screening
Prof Denny Levett
 Perioperative assessment: does it actually change anything?
Dr Laura Frank
 Demystifying diabetes
Dr Tamara Eichel

NEURODIVERSITY
 One stop shop - anaesthesia facilitating care of the disabled
Dr Peter Smith
 Exploring autism among us
Dr Wei Song
 The quiet pathway for children
Dr Ramanie Jayaweera and Dr Stephanie Crescini

COMMUNICATIONS SIG
 How informed consent misinforms: Moving beyond the checkbox to mitigate nocebo effects
Dr Allan Cyna
 The paradox of informed consent
Dr Nick Chrimes
 The view from medical defence
Ms Naomi Sher

GASBAGGING
 System thinking / good practice in patient safety investigations and learning
Prof Paul Bowie
 Surviving one-lung ventilation
A/Prof Andrew Lumb
 Why I still use inhalational anaesthesia
Dr Hamish Meares

AWARDS
 Gilbert Troup ASA Prize

1500-1530 - Afternoon tea

1530- 1700
AIRWAY SIG
 Prevention of unrecognised oesophageal intubation
Dr Stuart Marshall
 No airway for the shared airway
Prof Anil Patel
 The unjust villification of cricriod pressure
Dr Nick Chrimes

NEUROANAESTHESIA - EVOLUTION OF MANAGEMENT OF INTRACRANIAL HAEMORRHAGE AND STROKE
 Anaesthetist's perspective
Dr Hilary Madder
 Neuro Intensivist's perspective
A/Prof Ranil Chandra
 Neurosurgeon's perspective
Dr Justin Moore

CTVP SIG
 Introduction to the electrophysiology study
Dr Lauren Shephard
 Perioperative management of intracardiac devices
Dr Adam Eslick
 Anaesthesia for AF ablation
Dr Martin Dempsey

OBSTETRIC
 Birthing on Country
Dr Donna Hartz
 Managing obstetric care in a RRH
Rosmarin Zacher

AWARDS
 John Ritchie NZSA Prize

SCIENTIFIC PROGRAM - SATURDAY 10 OCTOBER 2026

0730-830 - WELI breakfast

0900 - 1030
PLENARY
Chair: Dr Jonothan Panckhurst
Alan Merry Oration
 Becoming an indigenous anaesthetist *CPD Cultural Competence*
Dr Andrew Warmington
 Managing difficult clinician-patient interactions in anaesthesia care: practical approaches
Prof Marcy Rosenbaum

1030-1100 - Morning tea

1100-1230
FEEDBACK AND COACHING
 Effective feedback conversations with trainees
Prof Marcy Rosenbaum
 Trainee feedback - a study
Dr Scott Fortey
 A coaching approach to the feedback conversation
Dr Sancha Robinson

DAY CARE
 Perioperative care considerations at the day stay stage
Dr Ken Sleeman
 Early discharge of arthroplasties
Dr Sarah Hobson
 Regional anaesthesia adjustments
Dr Reg Edward

ANAESTHESIA AND INTENSIVE CARE

ODEC
 Anaesthetic training in the Pacific
Dr Apaitia Goneyale, Fiji
 Anaesthesia in Samoa
Dr Cecilia Vaai- Bartley, Samoa
 Anaesthesia in PNG
Dr Lui Apolos

AWARDS
 ASA Best Poster Prize
 ASA Rupert Hornabrook Prize

1230-1330 - Lunch (RAG Lunch)

1330-1500
PLENARY
Chair: Dr Allysan Armstrong-Brown
 Human factors and ergonomics: building capacity
Prof Paul Bowie
 Death, destruction and the airway
Prof Anil Patel

1500-1530 - Afternoon tea

1530-1700
ACUTE PAIN SIG
Chair: Dr Adrian Sultana
 Acute pain management in chronic pain patients
Dr Steve Smith
 After the block wears off: strategies for rebound pain
Dr Jason Goh
 Dexamethazone
Ass/Prof Jennifer Stephens

webAIRS
 When the block steals the breath: phrenic nerve palsy after brachial plexus block
Dr Joanne Tan
 e-FONA in Australia & New Zealand; incidents, insights & improvements
Dr Chad Oughton
 LAST but not least: local anaesthetic toxicity reported to webAIRS
Dr Kate Brown-Beresford

THE NEXT PHASE
 Patient safety myths & fallacies
Prof Paul Bowie
 Preventing postoperative pulmonary complications - still trying
Prof Andrew Lumb
 Update on voluntary assisted dying
Dr Charles Douglas

SPANZA
 Paediatric trauma
 Paediatric airway
 Paediatric TIVA

AWARDS
 CSC Trainee Member Group (TMG)
 CSC Trainee Member Audit/Survey Prize

1700- 1900 - ASA Members drinks and AGM

SCIENTIFIC PROGRAM - SUNDAY 11 OCTOBER 2025

0715-830 - ASA Policy update breakfast

0900-1030

REGIONAL ANAESTHESIA SIG

Chair: Dr Vivian Ho

Needle little help? Spinal anaesthesia failure; mechanisms, prevention, optimisation

Dr Joanne Tan

Selective nerve blocks for perioperative shoulder pain: Anatomical validation, evaluation of phrenic nerve paresis and patient-reported outcomes

Dr Michelle Chong

Complex regional pain syndrome in the perioperative period - complex for the anaesthetists too!

Dr Chris Brunson

ELDERLY MEDICINE

The vulnerable brain: the crossover of geriatric medicine and anaesthesia

Dr Mark Hohenberg

The elderly brain and processed EEGs

Dr Sarah Armarego

PAEDIATRICS

Premedication update

Dr Nilru Vitharana

Anaesthesia for the paediatric occasionalist

Dr Simon McLaughlin

Trigger warning: Identifying and managing MH in the paediatric population

Dr Fiona Desmond

CARDIAC FOR NON CARDIAC SURGERY

Wrong pressures in the right places - PHT in the non-cardiac theatre

Dr Ben Piper

The errant aortic valve

Dr Robert Thomas

Mitral mischief

Dr Sab Eissa

1030-1100 - Morning tea

1330-1500

CLOSING PLENARY

How deep and how high? Breathing in challenging places

Prof Andrew Lumb

Non-beneficial surgery

Dr Carl D'Souza and Dr Tony Padley

BREAKFAST AND LUNCH SESSIONS

BREAKFAST SESSION

WELI

SATURDAY 10/10/26	0730-0830
Cost	\$A50

All are welcome to join us for breakfast as we discuss some of the work being done to address the issue of gender equity in anaesthesia. This breakfast includes a mini workshop on introducing yourself and how to network at conferences. There will also be an opportunity to practice your skills with some of the big names in anaesthesia!

BREAKFAST SESSION

ASA Policy update

SUNDAY 11/10/2026	0715-0830
Cost	Complimentary

Facilitators: Dr Michael Lumsden-Steel, Dr Namrata Singh & Dr James Hosking

Join us for Business & Billings: All Things ASA - a practical session covering key aspects of anaesthesia practice management. From billing insights to ASA guidelines, get the latest updates and expert advice to optimise your professional and financial success.

LUNCH SESSION

Trainee lunch

THURSDAY 8/10/26	1230-1330
Cost	Complimentary

Take a break and connect with fellow trainees at the Trainee Lunch. It's a perfect opportunity to connect with peers, network with mentors. Enjoy a casual setting with great food and even better conversations.

LUNCH SESSION

Retired anaesthetists lunch

SATURDAY 10/10/26	1215-1330
Cost	Complimentary

Join fellow retired anaesthetists for a relaxed and engaging Retired Anaesthetist Lunch, a chance to reconnect, share experiences, and enjoy a delightful meal in great company. Celebrate a career well spent while catching up with old friends and making new ones.

WORKSHOP PROGRAM - THURSDAY 8 OCTOBER

0900 SESSION

WS1	RA: Plan A blocks for the novice regional anaesthetist
WS2	RA: Upper limb, above the clavicle, below the clavicle
WS3	Gastric POCUS
ER1	CICO
ER2	Paediatric & neonatal cardiac arrest
WS4	Vantari VR - Cric scalpel bougie, chest drain traumatic, gastric US, CVC
MC1	Veterinary medicine
SGD1	To TEG, or not to TEG, that is the question
ER3	Major haemorrhage
MC2	Safe airway society hyper-angulated blade & VAFI
MC3	How to seek feedback for learning
SGD2	Perioperative management of cardiac devices
MC4	SEIPS (System engineering initiative for patient safety): Quality improvement
T1	Demystifying cardiac anaesthesia for Trainees
ER4	ASBD
OFFSITE	
WS5	AFOI workshop (0830-1315)
ER5	CICO + "Anatomically difficult neck" (0900-1230)

1100 SESSION

WS6	RA: Plan A blocks for the novice regional anaesthetist
WS7	RA: Upper limb, above the clavicle, below the clavicle
WS8	Gastric POCUS
ER6	CICO
ER7	Paediatric & neonatal cardiac arrest
WS9	Vantari VR - Cric scalpel bougie, chest drain traumatic, gastric US, CVC
SGD3	Peri-operative management of cardiac conundrums
SGD4	To TEG, or not to TEG, that is the question
ER8	Major haemorrhage
MC5	Enhancing learners' communication skills in the context of patient care
PE1	M&M session
MC6	SEIPS (System engineering initiative for patient safety): Quality improvement
T2	Extreme Everest
ER9	ASBD

1330 SESSION

WS10	RA: Trunk/chest
WS11	RA: Lower limb, hip, knee & below
ER10	CICO
WS12	Eye blocks
WS13	Vantari VR - Cric scalpel bougie, chest drain traumatic, gastric US, CVC
SGD5	Approach to potentially futile surgery
SGD6	To TEG, or not to TEG, that is the question
MC7	Using simulation for systems improvement: A practical approach to research and quality improvement
SGD7	Enhancing learners' communication skills in the context of patient care
MC8	Anaesthesia for the occasional paediatric anaesthetist
MC9	Extreme everest
T3	Publish or perish?
SGD8	Coaching workshop
OFFSITE	
WS14	AFOI workshop (1215-1700)
ER11	Cardiac arrest/ALS workshop (1300-1630)
S1	Local wine tasting

1530 SESSION

WS15	RA: Trunk/chest
WS16	RA: Lower limb, hip, knee & below
ER12	CICO
T4	EYE blocks - TRAINEE SESSION
WS17	Vantari VR - Cric scalpel bougie, chest drain traumatic, gastric US, CVC
SGD10	Ethics - historical aspects and autonomy / informed consent
SGD11	Neuromonitoring
SGD12	General paediatric ENT anaesthesia
SGD13	Perioperative management of diabetes

SATURDAY 10 OCTOBER

OFFSITE

ER13	REACT for the CSC
ER14	REACT for the CSC

EMERGENCY RESPONSE WORKSHOPS

EMERGENCY RESPONSE WORKSHOP

ER1, ER6, ER10 & ER12 - CICO

THURSDAY 8/10/2026 ER1 - 0900-1030
ER6 - 1100-1230

FACILITATORS: Dr Robert Buckland & Dr Paul Pham

ER10 - 1330-1500
ER12 - 1530-1700

FACILITATORS: Dr Rheily Ward & Dr Richard Davey

Cost \$A250

Our 'Can't intubate, can't oxygenate' is a workshop which will prepare participants to perform both cannula and scalpel methods for emergency airway situations.

CPD Home - Educational Activities - Emergency Response Workshop
ANZCA CPD - Emergency Response - CICO

EMERGENCY RESPONSE WORKSHOP

ER4 & ER9 - ASBD

THURSDAY 8/10/2026 ER4 - 0900-1030
ER9 - 1100-1230

Cost \$A250

FACILITATOR: Dr Vida Viliunas OAM

Acute severe behavioural disturbance presents one of the most complex intersections of safety, physiology, environment, and rapid decision-making. This workshop offers clinicians a clear, contemporary framework for understanding and managing ASBD with confidence, compassion, and system-level awareness.

CPD Home - Educational Activities - Emergency Response Workshop
ANZCA CPD - Emergency Response - ASBD

EMERGENCY RESPONSE WORKSHOP

ER2 & ER7 - Paediatric cardiac arrest

THURSDAY 8/10/2026 ER2 - 0900-1030
ER7 - 1100-1230

Cost \$A250

FACILITATORS: Dr Elyse Farrow, Dr Sally Wharton & Dr Kim Rackemann

This workshop offers an opportunity to refresh and update knowledge and practical skills in newborn and paediatric resuscitation, delivered by facilitators who regularly practise paediatric anaesthesia. Four interactive stations will cover: newborn resuscitation, management of the choking child, basic and advanced life support and recognition and management of shockable and non-shockable rhythms.

CPD Home - Educational Activities - Emergency Response Workshop
ANZCA CPD - Emergency Response - Cardiac Arrest

EMERGENCY RESPONSE WORKSHOP

ER5 - CICO + "Anatomically difficult neck"

THURSDAY 8/10/2026 ER5 - 0900-1230

Cost \$A855

OFFSITE WORKSHOP: John Hunter Sim Centre

FACILITATORS: Dr Sacha Muller & Dr Nick Van Huizen

Managing a "can't intubate, can't oxygenate" scenario is challenging enough – but when it occurs in the context of an anatomically difficult neck, the stakes rise sharply. This hands-on workshop gives clinicians the opportunity to refine their technical skills, sharpen their decision-making, and practise front-of-neck access techniques in scenarios where standard approaches may not apply. **BUS TRANSPORT PROVIDED**

CPD Home - Educational Activities - Emergency Response Workshop
ANZCA CPD - Emergency Response - CICO

EMERGENCY RESPONSE WORKSHOP

ER3 & ER8 - Major haemorrhage

THURSDAY 8/10/2026 ER3 - 0900-1030
ER8 - 1100-1230

Cost \$A250

FACILITATOR: Dr Bart Fielden

This interactive workshop will provide a framework for managing critical haemorrhage across a range of clinical scenarios. It will include discussion of technical and non-technical skills as well as useful tips and tricks that can be translated to daily practice.

CPD Home - Educational Activities - Emergency Response Workshop
ANZCA CPD - Emergency Response - Major Haemorrhage

EMERGENCY RESPONSE WORKSHOP

ER11 - Cardiac arrest/ALS workshop

THURSDAY 8/10/2026 ER11 - 1300-1630

Cost \$A855

OFFSITE WORKSHOP: John Hunter Sim Centre

FACILITATORS: Dr Sacha Muller & Dr Nick Van Huizen

This workshop provides a focused, hands-on refresher in the recognition and management of cardiac arrest, grounded in current ALS principles and real-world clinical practice. Designed for clinicians who want to sharpen their skills and strengthen team performance, the session blends practical drills with structured discussion to build confidence in time-critical decision-making. **BUS TRANSPORT PROVIDED**

CPD Home - Educational Activities - Emergency Response Workshop
ANZCA CPD - Emergency Response - ALS

EMERGENCY RESPONSE WORKSHOP & MASTERCLASS PROGRAM

EMERGENCY RESPONSE WORKSHOP

ER13 & 14 - "REACT for the CSC"

SATURDAY 10/10/2026	ER13 - 0800-1200 ER14 - 1230-1630
----------------------------	--------------------------------------

Cost	\$A550
-------------	--------

OFFSITE WORKSHOP: JHH Interventional Suite

FACILITATORS: REACT Faculty

REACT-Lite: a simulation-based workshop for the management of acute, life-threatening complications in the Cardiac Cath Lab. Participants will be provided with eLearning material ahead of time. Over the 4h of the workshop participants will spend approximately 2.5h in high fidelity simulation covering airway management, defibrillation, pharmacological intervention, and mechanical cardiopulmonary resuscitation, ensuring comprehensive exposure to critical events encountered in contemporary interventional cardiology practice.

BUS TRANSPORT PROVIDED

CPD Home - Educational activities - Emergency response workshop
ANZCA CPD - Emergency response -ALS

MASTERCLASS

MC3 - How to seek feedback for learning

THURSDAY 8/10/2026	MC3 - 0900-1030
---------------------------	-----------------

Cost	\$A60
-------------	-------

FACILITATOR: Dr Scott Fortey

Feedback isn't just something that happens to us — it's a skill we can actively cultivate. This masterclass explores how clinicians can invite, shape, and use feedback in ways that genuinely accelerate learning and improve performance, even in high-pressure environments.

CPDHome - Educational CPD - Group-focused activity
ANZCA CPD - Knowledge and skills - Short format learning

MASTERCLASS

MC1 - Veterinary medicine

THURSDAY 8/10/2026	MC1 - 0900-1030
---------------------------	-----------------

Cost	\$A60
-------------	-------

FACILITATOR: Dr Gregory Dale

Expand your professional horizons with a masterclass designed to introduce anaesthetists to the fascinating and complex world of veterinary anaesthesia. This session offers a high-level, concept-driven exploration of species-specific physiology, anaesthetic planning, and perioperative management across a range of animal patients.

CPDHome - Educational CPD - Group-focused activity
ANZCA CPD - Knowledge and skills - Short format learning

MASTERCLASS

MC4 & MC6 - SEIPS (System Engineering Initiative for Patient Safety): Quality improvement differently

THURSDAY 8/10/2026	MC4 - 0900-1030 MC6 - 1100-1230
---------------------------	------------------------------------

Cost	\$A60
-------------	-------

FACILITATOR: Prof Paul Bowie

The Systems Engineering Initiative for Patient Safety (SEIPS) is one of the most widely used Human Factors frameworks in healthcare, often described as the "Swiss Army Knife" for its versatility and accessibility. This workshop introduces SEIPS as a practical tool to understand the complex interactions that influence both positive and adverse outcomes in care systems, and to support the co-design of safer, more efficient workflows. Participants will explore how SEIPS can be applied to safety investigations, organisational learning, and team-based reviews such as M&M meetings, while also providing a simple, effective way to teach Human Factors systems thinking to novice learners, including postgraduate trainees.

CPDHome - Educational CPD - Group-focused activity
ANZCA CPD - Knowledge and skills - Short format learning

MASTERCLASS

MC2 - Safe Airway Society Hyperangulated Videolaryngoscopy & Video-Assisted Flexible Bronchoscopic Intubation (VAFI)

THURSDAY 8/10/2026	MC2 - 0900-1030
---------------------------	-----------------

Cost	\$A400
-------------	--------

FACILITATORS: Dr Nicholas Chrimes, Dr Chad Oughton & Dr Matthew James

Hyperangulated videolaryngoscopy is now considered a core skill in which all anaesthetists should be proficient. Video-Assisted Flexible Bronchoscopic Intubation (VAFI) is an advanced technique which may be incorporated into the airway strategy of skilled airway teams. This two-part airway workshop provides expert instruction in these techniques.

CPDHome - Educational CPD - Group-focused activity
ANZCA CPD - Knowledge and skills - Short format learning

MASTERCLASS

MC5 - Enhancing learners' communication skills in the context of patient care

THURSDAY 8/10/2026	MC5 - 1100-1230
---------------------------	-----------------

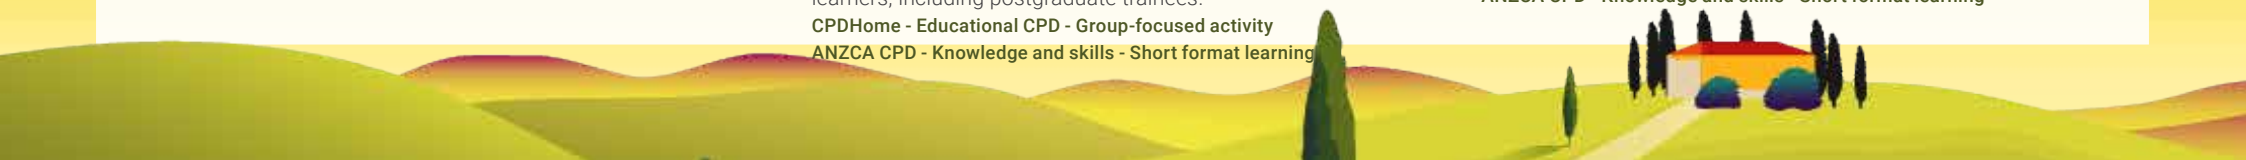

Cost	\$A60
-------------	-------

FACILITATOR: Prof Marcy E. Rosenbaum

Effective communication sits at the heart of safe, compassionate patient care — yet it is also one of the most challenging skills for learners to develop with confidence. This masterclass offers clinicians a structured, practical exploration of how to teach, model, and support communication skills in real clinical environments.

Through expert-led discussion and applied strategies, we will unpack how to help learners communicate clearly, empathetically, and professionally, even when the clinical context is complex or emotionally charged.

CPDHome - Educational CPD - Group-focused activity
ANZCA CPD - Knowledge and skills - Short format learning

MASTERCLASS PROGRAM, PRACTICE EVALUATION & SOCIAL

MASTERCLASS

MC7 - Using simulation for systems improvement: A practical approach to research and quality improvement

THURSDAY 8/10/2026 MC7 - 1330-1700

Cost \$A60

FACILITATOR: A/Prof Cate McIntosh

Simulation is widely used in healthcare for education and training, yet its potential to support research and quality improvement remains under-utilised and often overlooked. This workshop introduces a practical approach to the application of Human Factors principles, using simulation to support system design and improvement. Participants will explore how simulation can be used to understand work as done, identify system risks, and refine interventions before implementation. Using practical frameworks and approaches, participants will learn how to analyse clinical workflows and test solutions, including tools such as cognitive aids. The workshop provides a practical starting point for applying Human Factors methods to real clinical challenges. Participants will learn how simulation can reveal work as done, identify system risks, and refine interventions before implementation. The session covers practical frameworks and a range of methods from cognitive walkthroughs to in situ simulation to analyse workflows and support effective system design, including the development and testing of tools such as cognitive aids.

This workshop offers a clear, practical starting point for applying Human Factors and simulation methods to real clinical challenges.

CPDHome - Educational CPD - Group-focused activity
ANZCA CPD - Knowledge and skills - Short format learning

MASTERCLASS

MC8 - Anaesthesia for the occasional paediatric anaesthetist

THURSDAY 8/10/2026 MC8 - 1330-1500

Cost \$A60

FACILITATOR: Dr Nilru Vitharana

Step into a focused, confidence building session designed for clinicians who don't regularly provide paediatric anaesthesia but want to stay sharp, safe, and up to date. This practical and highly relevant masterclass demystifies the unique physiological, pharmacological, and perioperative considerations that make children different—not just smaller adults. Focus areas will include vascular access tricks, and resuscitation and management of the critically unwell child that presents to a non-paediatric hospital. Participants will walk away with refreshed knowledge, actionable frameworks, and renewed assurance in managing paediatric cases when they arise. Whether it's preparing for the unexpected emergency or strengthening your everyday practice, this session equips you with the essential tools to deliver calm, competent, and child centred care.

CPDHome - Educational CPD - Group-focused activity
ANZCA CPD - Knowledge and skills - Short format learning

PRACTICE EVALUATION

PE1 - M&M session

THURSDAY 8/10/2026 PE1 - 1100-1230

Cost \$A60

FACILITATOR: Dr Gregory Dale

This M&M session provides a structured, supportive forum for clinicians to examine recent cases, explore contributing factors, and identify opportunities to strengthen patient care. The focus is on learning rather than blame — using real events to deepen insight, improve systems, and enhance clinical decision-making.

CPDHome - Educational CPD - Practice evaluation
ANZCA CPD - Knowledge and skills - Practice evaluation

MASTERCLASS

MC9 - Xtreme Everest

THURSDAY 8/10/2026 MC9 - 1330-1500

Cost \$A60

FACILITATOR: Prof Denny Levett

Why take critical care research to one of the most hostile environments on Earth? As research lead and expedition doctor for the Xtreme Everest studies, Prof Levett will describe the scientific rationale for investigating human adaptation to hypoxia at extreme altitude and how these insights translate from mountainside to bedside. The lecture will explore why the expedition was undertaken, how risks were assessed and mitigated, and the extraordinary preparation and logistics required to conduct high-quality research in the "death zone." Drawing on first-hand experience, Prof Levett will examine individual variability in physiological responses to hypoxia, the effects of low oxygen on physical and cognitive performance, and the challenges of maintaining safety and sound decision-making in an environment where deterioration can be rapid and rescue limited. The session will also highlight lessons in leadership, teamwork, and operational planning when uncertainty and risk are ever-present.

Ultimately, the extreme environment provides a unique laboratory for understanding human limits and resilience, offering practical insights for clinicians tasked with delivering safe, high-quality care under pressure.

CPDHome - Educational CPD - Group-focused activity
ANZCA CPD - Knowledge and skills - Short format learning

SOCIAL

S1 - Wine Tasting

OFFSITE WORKSHOP: Usher Tinkler Winery

THURSDAY 8/10/2026 S1 - 1330-1500

Cost \$A75

Discover how Usher Tinkler has reshaped the art of wine tasting in the Hunter Valley. In this workshop, they will explore their distinctive approach, where premium salumi and artisan cheeses are thoughtfully paired with their wines to create a richer, more immersive tasting journey. **BUS TRANSPORT PROVIDED**

WORKSHOP PROGRAM

WORKSHOP

WS1 & WS6 - RA: Plan A blocks for the novice regional anaesthetist

THURSDAY 8/10/2026 WS1 - 900-1030
WS6 - 1100-1230

Cost \$A150

Facilitators: Dr Angus Hardy & Dr Francoise Naeyaert

Enhance your skills and confidence in regional nerve blocks with this focused training opportunity designed for anaesthetists looking to upskill in ultrasound-guided techniques. This session covers key blocks for the upper limb, trunk, and lower limb, including the interscalene and axillary brachial plexus, erector spinae plane (ESP) rectus sheath, and femoral nerve, adductor canal, and popliteal sciatic blocks. Gain practical insights, refine your technique, and build confidence in performing commonly used regional blocks to improve perioperative analgesia and patient outcomes.

CPDHome - Educational CPD - Group-focused activity

ANZCA CPD - Knowledge and skills - Short format learning

WORKSHOP

WS4, WS9, WS13, WS17 Vantari VR - Cric scalpel bougie, chest drain traumatic, gastric US, CVC

THURSDAY 8/10/2026 WS4 - 900-1030
WS9 - 1100-1230
WS13 - 1330-1500
WS17 - 1530-1700

Cost \$A150

Facilitator: Tina van Weelderden

Vantari is an Australian health technology company delivering Virtual Reality training that allows doctors and nurses to practise procedures in a safe, scalable environment before treating real patients. Founded in 2017, Vantari partners with hospitals, universities and medical device companies globally. Its research-backed VR platform improves clinical performance and safety compared with traditional training methods. This workshop features four key modules designed to build confidence and competence in critical clinical procedures through immersive VR simulation.

CPDHome - Educational CPD - Group-focused activity

ANZCA CPD - Knowledge and skills - Short format learning

WORKSHOP

WS2 & WS7 - RA: Upper limb, above the clavicle, below the clavicle

THURSDAY 8/10/2026 WS2 - 900-1030
WS7 - 1100-1230

Cost \$A150

Facilitators: Dr Vivian Ho, Dr Steve Bruce, Dr Michelle Chong & Dr Alexander Bradfield

Unlock the precision and confidence that define exceptional regional anaesthesia practice. This immersive session zeroes in on upper-limb blocks above the clavicle and below the clavicle, giving you a streamlined, high-yield learning experience guided by experts in the field.

CPDHome - Educational CPD - Group-focused activity

ANZCA CPD - Knowledge and skills - Short format learning

WORKSHOP

WS5 & WS7 - AFOI workshop

OFFSITE WORKSHOP: GOSFORD HOSPITAL

THURSDAY 8/10/2026 WS5 - 830-1315
WS14 - 1215-1700

Cost \$A600

Facilitator: Dr Denise Keavey

Refresh your awake fiberoptic intubation skills in a highly practical, small group setting designed to give you real world confidence. Over four immersive hours, you will gain firsthand experience in topical airway anaesthesia, endoscopy, and even the patient perspective — equipping you with the language and insight to expertly consent and guide patients through the procedure. **BUS TRANSPORT PROVIDED**

PROVIDED

PARTICIPANTS WILL INTUBATE MANNEQUINS ONLY; PEER PRACTICE INVOLVES ENDOSCOPY ONLY. FOR SAFETY, ALL ATTENDEES MUST SIGN A CONSENT FORM AND ARRIVE FASTED FOR 4 HOURS.

PLEASE NOTE: PREGNANCY OR ALLERGY TO GLYCOPYRROLATE OR LIGNOCAINE EXCLUDES PARTICIPATION

CPDHome - Educational CPD - Group-focused activity

ANZCA CPD - Knowledge and skills - Short format learning

WORKSHOP

WS3 & WS8 - Gastric POCUS

THURSDAY 8/10/2026 WS3 - 900-1030
WS8 - 1100-1230

Cost \$A150

Facilitators: Dr Phil Holz, Dr Joanne Tan, Dr Wan Yee Tey & Dr Nav Sidhu

Enhance your skills and confidence in regional nerve blocks. Discover how gastric ultrasound can transform your perioperative assessment and enhance patient safety. This targeted session dives into the essentials of Gastric POCUS, giving you the clarity and confidence to interpret gastric contents with precision.

CPDHome - Educational CPD - Group-focused activity

ANZCA CPD - Knowledge and skills - Short format learning

WORKSHOP

WS10 & WS15 - RA: Trunk/chest

THURSDAY 8/10/2026 WS10 - 1330-1500
WS15 - 1530-1700

Cost \$A150

Facilitators: Dr Mark Davies, Dr Joel Parrey & Dr Ashok Dharmalingam

Regional anaesthesia of the trunk and chest has transformed perioperative and chest wall trauma care — improving analgesia, reducing opioid use, and supporting smoother recovery. This workshop gives clinicians the chance to refine their technique, deepen their anatomical understanding, and gain confidence with the blocks that matter most in thoracic and upper-abdominal surgery and for analgesic management in chest wall trauma.

CPDHome - Educational CPD - Group-focused activity

ANZCA CPD - Knowledge and skills - Short format learning

WORKSHOP PROGRAM & SMALL GROUP DISCUSSION

WORKSHOP

WS11 & WS16 - RA: Lower limb, hip, knee & below

THURSDAY 8/10/2026 WS11 - 1330-1500
WS16 - 1530-1700

Cost \$A150

Facilitators: Dr Lee Zimmer, Dr Natalie Purcell & Dr Joanne Tan

Lower-limb regional anaesthesia offers powerful analgesia, faster recovery, and reduced opioid use – but only when the anatomy, sono-landmarks, and block selection are crystal clear. This workshop gives clinicians the chance to refine their scanning, sharpen their needle skills, and build confidence across the blocks that matter most for hip, knee, and below-knee surgery.

CPDHome - Educational CPD - Group-focused activity
ANZCA CPD - Knowledge and skills - Short format learning

WORKSHOP

WS12 - Eye blocks

THURSDAY 8/10/2026 WS12 - 1330-1500

Cost \$A150

Facilitators: Dr David Scott & Dr Tom Curtis

Ophthalmic regional anaesthesia demands precision, anatomical clarity, and a calm, methodical technique. This workshop is designed specifically for anaesthetists who want to refine their skills in delivering safe, effective eye blocks for a wide range of ophthalmic procedures. Through expert guidance and practical, model-based practice, participants will deepen their understanding of orbital anatomy, sharpen their technical skills, and build confidence in managing both routine and challenging cases.

CPDHome - Educational CPD - Group-focused activity
ANZCA CPD - Knowledge and skills - Short format learning

SMALL GROUP DISCUSSION

SGD1, SGD4 & WS6 - To TEG, or not to TEG, that is the question

THURSDAY 8/10/2026 SGD1 - 0900-1030
SGD4 - 1100-1230
SGD6 - 1330-1500

Cost \$A60

Facilitator: Dr Ben Piper

Join a practical hands-on session exploring the real-world value of thromboelastography in perioperative care. Designed for a small group of anaesthetists, this discussion goes beyond the basics to unpack when TEG genuinely informs decision-making – and when traditional testing or clinical judgement may serve you just as well.

CPDHome - Educational CPD - Group-focused activity
ANZCA CPD - Knowledge and skills - Short format learning

SMALL GROUP DISCUSSION

SGD2 - Perioperative management of cardiac devices

THURSDAY 8/10/2026 SGD2 - 0900-1030

Cost \$A60

Facilitator: Mr Andrew Screech

Cardiac implantable electronic devices add a layer of complexity to perioperative care that demands clarity, confidence, and up-to-date understanding. This small-group masterclass offers anaesthetists a focused, expert-led exploration of how to navigate pacemakers, ICDs, CRT devices, and loop recorders safely and effectively throughout the surgical journey.

CPDHome - Educational CPD - Group-focused activity
ANZCA CPD - Knowledge and skills - Short format learning

SMALL GROUP DISCUSSION

SGD3 - Peri-operative management of cardiac conundrums

THURSDAY 8/10/2026 SGD3 - 1100-1230

Cost \$A60

Facilitator: Dr Andrew Emanuel

Cardiac complexity doesn't wait for the perfect moment, and even the most seasoned anaesthetist encounters cases that challenge assumptions and stretch clinical reasoning. This small-group discussion creates space for thoughtful exploration of the tricky, nuanced, and occasionally perplexing cardiac issues that arise in the peri-operative setting.

ANZCA CPD - Knowledge and skills - Short format learning

SMALL GROUP DISCUSSION

SGD5 - Approach to potentially futile surgery

THURSDAY 8/10/2026 SGD5 - 1330-1500

Cost \$A60

Facilitator: Dr Shriram Swaminathan

This workshop provides a clear, hands-on refresher in core anaesthetic principles, contemporary practice, and safe perioperative management. Designed for clinicians at all levels, the session blends practical skills with applied physiology and real-world decision-making.

SMALL GROUP DISCUSSION

SMALL GROUP DISCUSSION

SGD7 - Enhancing learners' communication skills in the context of patient care

THURSDAY 8/10/2026 SGD7 - 1330-1500

Cost \$A60

Facilitator: Prof Marcy E. Rosenbaum

Effective communication sits at the heart of safe, compassionate patient care – yet it's also one of the most challenging skills for learners to develop with confidence. This masterclass offers clinicians a structured, practical exploration of how to teach, model, and support communication skills in real clinical environments.

Through expert-led discussion and applied strategies, we'll unpack how to help learners communicate clearly, empathetically, and professionally, even when the clinical context is complex or emotionally charged.

SMALL GROUP DISCUSSION

SGD11 - Neuromonitoring

THURSDAY 8/10/2026 SGD11 - 1530-1700

Cost \$A60

Facilitators: Prof Basil Matta & Dr Matt Young

SMALL GROUP DISCUSSION

SGD8 - Coaching workshop

THURSDAY 8/10/2026 SGD8 - 1330-1700

Cost \$A60

Facilitators: Dr Sancha Robinson, Dr Sangeeta Resch & Dr Anne Frankl

Coaching is one of the most powerful tools clinicians and educators can use to support growth, reflection and performance. This workshop introduces a clear, practical approach to coaching – helping participants build the skills to guide learners, colleagues and teams with confidence.

SMALL GROUP DISCUSSION

SGD12 - General paediatric ENT anaesthesia

THURSDAY 8/10/2026 SGD12 - 1530-1700

Cost \$A60

Facilitators: Dr Nilru Vitharana & Dr Melissa Chin

This session provides a focused, clinically grounded update on paediatric sedation, with a particular emphasis on the evolving role of dexmedetomidine and recent changes to sedation formularies. Designed for clinicians involved in procedural sedation or perioperative care, the workshop blends pharmacology, practical guidance and real-world application.

SMALL GROUP DISCUSSION

SGD10 - Ethics - historical aspects and autonomy / informed consent

THURSDAY 8/10/2026 SGD10 - 1530-1700

Cost \$A60

Facilitator: Dr Robert Buckland

Modern clinical ethics didn't emerge overnight – it was shaped by centuries of medical tradition, pivotal historical events, and the gradual recognition of patient autonomy as a cornerstone of safe, respectful care. This small-group discussion invites participants to explore how history informs contemporary ethical practice, and how autonomy and informed consent continue to evolve in the context of modern medicine.

SMALL GROUP DISCUSSION

SGD13 - Perioperative management of diabetes

THURSDAY 8/10/2026 SGD13 - 1530-1700

Cost \$A60

Facilitator: Dr Sharon Tivey

Diabetes remains one of the most challenging comorbidities in surgical care. This focused anaesthetic session simplifies the complexity, giving clinicians clear, practical strategies to optimise diabetic patients from pre-op through recovery.

We will cover evidence-informed glycaemic control, medication and insulin adjustments, risk reduction, and real-world pitfalls—equipping you with streamlined approaches that enhance safety and improve perioperative outcomes.

TRAINEE PROGRAM

The CSC26 Trainee Program offers a lecture series as well as two dedicated trainee places across selected workshops, giving emerging clinicians the chance to learn directly from experts, collaborate with peers, and gain hands-on experience in a supportive environment. Trainees will be immersed in real-world clinical discussions, exposed to current best practice, and encouraged to develop the confidence and capability needed to contribute meaningfully to perioperative care.

900-
1030

LECTURE

T1 - Demystifying cardiac anaesthesia for Trainees
Dr Girish Palnitkar

WORKSHOPS

WS1 - RA: Plan A blocks for the novice regional anaesthetist
WS2 - RA: Upper limb, above the clavicle, below the clavicle
WS3 - Gastric POCUS

1030-1100 - Morning tea

1100-
1230

LECTURE

T2 - Xtreme Everest
Prof Denny Levett

WORKSHOPS

WS6 - RA: Plan A blocks for the novice regional anaesthetist
WS7 - RA: Upper limb, above the clavicle, below the clavicle
WS8 - Gastric POCUS

1230-1330 - Lunch

1330-
1500

LECTURE

T3 - Publish or perish?
A/Prof Andy Lumb

WORKSHOPS

WS10 - RA: Trunk/chest
WS11 - RA: Lower limb, hip, knee & below

1500-1530 - Afternoon tea

1530-
1700

TRAINEE ONLY WORKSHOP

T4 - Eye Blocks
Dr David Scott
Dr Tom Curtis

WORKSHOPS

WS15 - RA: Trunk/chest
WS16 - RA: Lower limb, hip, knee & below

TERMS AND CONDITIONS

Entitlements

The full, trainee and associate registrations entitle delegates to the following:

- Access to all main congress program sessions
- Access to purchase workshop specific registrations
- Access to the trade exhibition
- Social functions: President's welcome reception and Healthcare Industry Reception included; "Viva la vines" Cocktail and dance function tickets available to purchase
- Catering: morning tea, lunch and afternoon tea
- Access to on-demand content

Optional social functions available to all categories to purchase:

- President's welcome reception
- Gala Dinner
- Hunter valley activities

Registration confirmation

Your completed registration and successful payment will be automatically acknowledged via email with confirmation attaching a tax invoice and receipt. If your email does not come through to your inbox, please check your junk mail settings. Your registration will only be confirmed upon full payment of fees.

Name badge

Each delegate will receive a name badge upon checking in at the registration area. This badge serves as your pass for entry to all sessions and social functions. It must be worn visibly at all times to ensure access to these events.

The congress managers expect all delegates to behave appropriately throughout the event. They reserve the right to revoke a delegate's name badge—and therefore their access privileges—if the individual engages in inappropriate behaviour.

Payment Options

Credit/Debit Card

The preferred payment method is credit/debit card. Accepted credit/debit cards are Visa and MasterCard. Please note all transactions will appear on your statement as 'Australian Society of Anaesthetists'.

Alternative payment method

For alternative payment methods please email the congress managers at register.csc@arinexgroup.com

Cancellations & Refunds

Cancellations must be notified in writing to the Congress Managers at register.csc@arinexgroup.com

Registration

Cancellations before **Tuesday 30 June 2026** will incur a **A\$150 cancellation fee**.

Cancellations from **Wednesday 1 July 2026 to Tuesday 8 September 2026** will incur a **50% cancellation fee**.

Cancellations on or after **Wednesday 9 September 2026** will receive **no refund**.

Social Functions

Payments are non-refundable as at **Wednesday 9 September 2026**

Tours/ Workshops

Payments are non-refundable as at **Wednesday 9 September 2026**

AI

AI-assisted tools contributed to the creation of certain elements within the CSC2026 marketing information. All content was reviewed and approved by our organising committee and team.

Disclaimer

This information is correct at the time of publishing. The congress managers reserve the right to delete, modify or alter items or to delete, modify or alter any aspect of the meeting timetabling and delivery at their sole discretion and without notice. Neither the host organisation(s) nor the congress managers will accept any liability for any loss or inconvenience caused to any party consequent to such changes.

In the event that the CSC2026 congress cannot run in person, your registration will automatically be transferred to a virtual registration.

Liability/Insurance

Registration fees do not include insurance of any kind. Neither the Australian Society of Anaesthetists, New Zealand Society of Anaesthetists nor Arinex will accept liability for, but not limited to:

- Damages of any nature (including financial) sustained by participants, or loss or damage to their personal property in the event of industrial disruptions or natural disasters, loss;
- Loss of fees/deposit through cancellation of your participation in the Conference or through cancellation of the Conference;
- Loss of international/domestic air fares or accommodation through cancellation for any reason; Medical expenses.

Insurance is the responsibility of the individual delegate and should be purchased in your country of origin. Delegates are strongly recommended to take out a suitable travel insurance policy including coverage for non-refundable registration fees when you register for the meeting and book your travel.

Force Majeure

The Conference Secretariat shall not be held responsible for any delay or failure in performance of its obligations here under to the extent such delay or failure is caused by fire, flood, strike, civil, governmental or military authority, acts of God, acts of terrorism, acts of war, epidemics, the unavailability of the venue or other similar causes

TERMS AND CONDITIONS

beyond its reasonable control and without fault or negligence. For one or more of such reasons, the Conference Secretariat and any co-organisers of the meeting may postpone, reschedule or cancel the event without liability on the part of Conference Secretariat and any co-organisers of the meeting. In the event the meeting cannot be held or is postponed pursuant to this section, the Conference Secretariat and any co-organisers of the meeting shall not be liable to attendee for any direct, consequential or incidental damages, costs, or losses incurred, such as transportation costs, accommodations costs, or financial losses.

Photography, Recordings/Copyright

The ASA and NZSA reserves the right to use any recordings whether audio or video and/or any photographs taken at any stage during the meeting for promotional, advertising or reporting of the meeting and/or its content at their sole discretion.

Privacy

Australia operates under the Privacy Act 1988 (Cth), as amended, and the Privacy Amendment (Notifiable Data Breaches), 2017. The objective of these is to protect the right of the individual to privacy of their information.

Europe operates under the General Data Protection Regulation (GDPR) (Regulation (EU) 2016/679), a regulation in EU law on data protection and privacy for all individuals within the European Union. The GDPR aims primarily to give protection to citizens over their personal data.

The congress managers comply with these legislations and are committed to protect the right of the individual to privacy of their information.

Arinex will not sell your personal information to third parties. If you believe that any information we are holding on you is incorrect or incomplete, please email us and we will promptly correct the information. You may also withdraw your consent for use of your information by advising us in writing.

Why do we wish you to provide your information?

We require your information to facilitate provision of information to you regarding the congress and to facilitate your participation in the congress. Information collected in respect of your proposed participation in any aspect of the congress will be used for the purposes listed below. You can give or withhold your consent for each or all of these uses. Please indicate your preferences when completing your registration form but please note that we will be unable to forward any information relating to the congress or to communicate with you regarding your registration if you select 'no' to point one.

What we will do with your information?

- Planning and conducting of the congress including arrangements for your participation (e.g. accommodation booking);
- In the Delegate List published for the congress;
- May also be provided to organisers of future occurrences of this congress;
- May be used to provide you with information of other relevant events in your area of interest.

Marketing

By registering for a CSC/NSC Congress as a non-member, you consent to being included on an annual electronic direct mail (EDM) and may receive an annual EDM promoting future congresses and events. You can unsubscribe at any time if you no longer wish to receive these communications.

Important Notes:

The parties who will have access to your information (subject to your preference selections on above points) are the congress managers, the congress host organisation (points 1 and point 4), delegates, sponsors and exhibitors of the congress (point 2) and any future organisers of the congress (point 3).

The parties mentioned above will rely on your above consent indications for the purposes of compliance.

You may withdraw your granular consent at any time by notice in writing to the congress managers.

You are entitled to access the information held by written application to the congress managers.

Code of Conduct

The ASA and NZSA respects the rights of all delegates to have varying views on many issues. We wish to encourage respectful and reasonable discussion at our meetings. Speakers have the right to deliver their messages without unwanted interjection. Where possible we will try to provide opportunity for respectful dialogue within the program when time allows.

The organiser and hosts of CSC2026 (the "Event") reserve the right to remove from the venue/event at any time any attendee to be causing, or potentially causing, a disturbance or exhibiting disruptive or inappropriate behaviour. Such removal does not constitute a right to refund of any fees paid.

Workshops

Workshop cancellations are fully refundable on the basis that the spot can be re-booked by another delegate.
